

ONE VOICE asks you to also consider this:

Is it possible to reach a comprehensive peace agreement among Israelis and Palestinians within two years?

Can the OneVoice movement help unleash the latent power of millions to compel elected representatives to follow their peoples' will and settle this conflict?

Many may think this is impossible.... **But** then again, when we asked whether it was possible to seize back the agenda from forces of terror and destruction in 2002, or to isolate violent extremists and empower moderates, most dismissed our chances.

You believed in us, and your investment has yielded strong returns thus far:

- In just 3 years, OneVoice has succeeded in getting hundreds of thousands of citizens to properly reframe the conflict as a conflict, not of Israelis vs. Palestinians or of Left vs. Right, but as a conflict of **Moderation vs. Extremism** – where the overwhelming majority of Palestinians & Israelis are ready to seize back the agenda from the minority of extremists who constantly seek to derail the peace process and to promote an absolutist vision.
- OneVoice organized the **first ever Get-Out-The-Vote campaign in the Arab world** – we held festivals of democracy, rallies engaging over 100,000 Palestinians & Public Service Announcements on Palestinian TV where even the Chief Islamic Justice encouraged Palestinians to vote notwithstanding the Hamas call to boycott elections.

- OneVoice has bolstered moderate leaders in local elections; OneVoice Youth Leadership Director, Ms. Leena Shtayee became the **youngest Palestinian woman to be elected in Municipal elections** with the highest number of votes in the West Bank and Gaza.

- OneVoice created an unprecedented coalition against extremism among Israel's 7 largest parties' Next Generation chair people from: **Labor, Yahad/Meretz, Shinui, Likud, Shas, NRP & Agudat Israel.**
- Over **150,000 citizens** have thus far participated in OneVoice grassroots negotiations.

- An **International Education Program** is taking Young OneVoice Palestinian and Israeli Ambassadors to 50 campuses across the globe to counteract divestment, polarization and dehumanization.

- Close to **800 Palestinian and Israeli Youth Leaders** have been trained on how to organize and mobilize their communities against extremism.
- OneVoice Boards now include **over 60 dignitaries, business leaders, celebrities and religious authorities** in a rare coalition that transcends false divisions and calls for moderate solutions.

- **Ford Foundation, Rockefeller Brothers Fund and the IBM International Foundation** are among the public institutions recognizing the importance of OneVoice's work and investing therein.

- In its short history, OneVoice has received the **King Hussein Leadership Prize** from **Queen Noor**, the **World Association of NGOs Peace & Security Award**, and **CTU's Peacemakers' Award**, along with endorsements from foremost Israeli, Palestinian, American and European officials.
